Environmental Policy

Summary

This Policy sets out principles to ensure that the SoftBank Group (meaning SoftBank Group Corp. and its subsidiaries) and its directors, officers and employees (including employees who are not Regular Employees; collectively, “we”) take the global environment into consideration when conducting corporate activities.

The SoftBank Group, which aims to be a company that will continue to grow for the next 300 years, is conscious of reducing the burden on the global environment in all of our business activities and will strive to conserve resources and energy, based on the recognition that maintaining and conserving the global environment forms the foundation of the SoftBank Group’s sustainability and growth. We will strive to improve energy efficiency and make effective use of resources, while also striving to maintain biodiversity and contribute to the continuous improvement of the natural environment, with the aim of achieving harmony between humans and nature .

Policy

Compliance with Environment-related Laws and Regulations

We will comply with laws, regulations, and other requirements concerning environmental conservation in and outside the countries and regions in which we operate.

Responses to Climate Change

We recognize the impacts and the associated risks and opportunities of climate change, and will work to mitigate and adapt to climate change.

Reduction of Environmental Burdens and Conservation of Resources

We recognize the importance of efficient and sustainable use of energy and resources in carrying out all our business activities, and will strive for continuous improvement in our efforts to reduce environmental burdens by reducing greenhouse gas emissions, proactively introducing renewable energy, reducing energy and resource use, promoting waste reduction and recycling, reducing water use, and establishing a procurement network that takes the natural environment into consideration.

Conservation of Biodiversity

We recognize the importance of conserving biodiversity and will strive to prevent or reduce the negative impacts of our business activities on the environment and biodiversity.

Information Disclosure and Communication

We will publicize the contents of this Policy both internally and externally, while also striving to disclose information on the environment, and will promote active communication with all internal and external stakeholders, including business partners and suppliers.

Competent Department

The Sustainability Department of SoftBank Group Corp. is in charge of this Policy.

Revision or Repeal

Any material revision or repeal of this Policy requires a resolution of the Board of Directors of SoftBank Group Corp.

Enforcement

This Policy is partly revised on and enforced from June 24, 2022.

Supplementary Provisions

1. Entered into force on May 1, 2021.
2. Revised on June 24, 2022.
