## **Announcement Regarding Follow-on Investments in OpenAI**

SoftBank Group Corp. (“SBG”) today announced that, on March 31, 2025 (U.S. time), it entered into a definitive agreement with OpenAI Global, LLC (“OpenAI Global”) and its affiliates (collectively, “OpenAI”), a U.S.-based artificial intelligence research and development company, to make follow-on investments of up to USD 40.0 billion (approximately JPY 5.98 trillion<sup>\*1</sup>)(the “Transaction”), as detailed below. SBG is planning to syndicate out USD 10.0 billion of the up to USD 40.0 billion investment to co-investors. Accordingly, SBG’s effective investment amount is expected to be up to USD 30.0 billion (approximately JPY 4.49 trillion<sup>\*1</sup>).

SBG’s financial policies<sup>\*2</sup> regarding LTV (Loan-to-Value: calculated as adjusted net interest-bearing debt ÷ equity value of holdings) and cash position remain unchanged.

<sup>\*1</sup> Converted at USD = JPY149.52

<sup>\*2</sup> SBG manages LTV below 25% in normal times in financial markets, with an upper threshold of 35% even in times of emergency. Concurrently, SBG secures a cash position sufficient to cover bond redemptions for at least the next two years.

### **1. Rationale for the Transaction**

With the center of the “Information Revolution” having evolved from personal computers, the Internet, and broadband to smartphones, it has now entered a new phase led by artificial intelligence (AI). In this context, SBG has declared its mission to realize Artificial Super Intelligence (ASI) for the advancement of humanity.

Recognizing OpenAI as the partner closest to achieving Artificial General Intelligence (AGI), a key milestone on the path to ASI, and its mission of ensuring AGI benefits all of humanity, SBG has positioned OpenAI as its most important partner and invested USD 2.2 billion in total through SoftBank Vision Fund 2 since September 2024.

The advancement of OpenAI’s AI models is key to achieving AGI and ASI, and massive computing power is essential. To that end, SBG has announced the “Stargate Project” together with OpenAI on January 21, 2025, to build dedicated AI infrastructure for OpenAI in the United States.

In alignment with this initiative, and to both further support OpenAI’s growth and capture the benefits of that growth in SBG’s NAV (Net Asset Value: calculated as equity value of holdings – adjusted net interest-bearing debt), SBG has decided to make follow-on investments in OpenAI.
