

NOTICE REGARDING SOFTBANK VISION FUND INFORMATION CONTAINED IN SBG'S ANNUAL REPORT

SoftBank Group Corp.'s annual report (the "**Annual Report**") is furnished to you for informational purposes and is not, and may not be relied on in any manner as, legal, tax, investment, accounting or other advice or as an offer to sell or a solicitation of an offer to buy limited partnership or comparable limited liability equity interests in SoftBank Vision Fund L.P. (together with, as the context may require, any parallel fund, feeder fund, co-investment vehicle or alternative investment vehicle, "**SVF**" or the "**Vision Fund**") or any future fund managed by SB Investment Advisers (UK) Ltd. (the "**Manager**" or "**SBIA**") or any affiliates thereof.

For the avoidance of doubt, the Vision Fund is a prior fund managed by SBIA which is not being offered to investors. Information relating to the performance of the Vision Fund or any other entity referenced in the Annual Report has been included for background purposes only and should not be considered an indication of the future performance of the Vision Fund, any other entity referenced in the Annual Report or any future fund managed by SBIA. References to any specific investments of the Vision Fund, to the extent included therein, are presented to illustrate the Manager's investment process and operating philosophy only and should not be construed as a recommendation of any particular investment or security. The investment performance of individual investments in the Vision Fund may vary and the performance of the selected transactions is not necessarily indicative of the performance of all of the applicable prior investments. The specific investments identified and described in the Annual Report do not represent all of the investments made by the Manager, and no assumption should be made that investments identified and discussed therein were or will be profitable.

The Vision Fund performance in the Annual Report is based on unrealized valuations of portfolio investments. Valuations of unrealized invest-

ments are based on assumptions and factors (including, for example, as of the date of the valuation, average multiples of comparable companies, and other considerations) that the Manager believes are reasonable under the circumstances relating to each particular investment. However, there can be no assurance that unrealized investments will be realized at the valuations indicated in the Annual Report or used to calculate the returns contained therein, and transaction costs connected with such realizations remain unknown and, therefore, are not factored into such calculations. Estimates of unrealized value are subject to numerous variables that change over time. The actual realized returns on the Vision Fund's unrealized investments will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, any related transaction costs and the timing and manner of sale, all of which may differ from the assumptions and circumstances on which the Manager's valuations are based.

Past performance is not necessarily indicative of future results. The performance of the Vision Fund or any future fund managed by the Manager may be materially lower than the performance information presented in the Annual Report. There can be no assurance that the Vision Fund or any future fund managed by the Manager will achieve comparable results as those presented therein.

The actual realized return on unrealized investments by the Vision Fund may differ materially from the performance information indicated in the Annual Report. No assumption should be made that investments identified and discussed in the Annual Report were or will be profitable, or that investments made in the future will be comparable in quality or performance to the investments described therein.
