The Presentation speaks as of the date hereof or as otherwise indicated herein. SBG and its respective affiliates, members, partners, stockholders, managers, directors, officers, employees and agents do not have any obligation to update any part of this Presentation. By accepting this Presentation, the recipient agrees that it will, and will cause its officers, directors, partners, members, shareholders, employees advisors or other similar representatives or agents (“Permitted Representatives”), to use the information herein only for informational purposes and for no other purpose and will not, and will cause its Permitted Representatives not to, divulge any such information to any other party. References to any specific investments of the Funds are presented to illustrate the manager of the Funds’ (the “Manager” or “SBI”) investment process and operating philosophy only and should not be construed as a recommendation of any particular investment or security. The investment performance of individual investments in the Funds may vary and the performance of the selected transactions is not necessarily indicative of the performance of all of the applicable prior investments. The specific investments identified and described herein do not represent all of the investments made by the Manager, and no assumption should be made that investments identified and discussed herein were or will be profitable.

Certain information contained herein constitutes “forward-looking statements,” which can be identified by the use of terms such as “may”, “will”, “should”, “expect”, “project”, “estimate”, “intend”, “continue”, “target” or “believe” (or the negatives thereof) or other variations thereon or comparable terminology. In particular, this Presentation contains certain information regarding SBG’s expected organization, operations and activities in the future. This information has been set out for illustrative purposes only, and does not constitute forecasts. This Presentation has been prepared based on SBG’s current view in relation to future events and various assumptions, including assumptions with respect to events that have not occurred, any of which may prove incorrect. While this Presentation is based on assumptions that SBG believes are reasonable under the circumstances, they are subject to uncertainties, changes (including changes in economic, operational, political, legal, tax and other circumstances) and other risks, including, but not limited to, broad trends in business and finance, tax and other legislation affecting SBG, all of which are unknowable and beyond SBG’s control and any of which may cause SBG’s organization, operations or activities to be materially different from those described in this Presentation. Nothing contained in this Presentation may be relied upon as a guarantee, promise or forecast or a representation as to the future.

Vision Fund and Delta Fund performance herein is based on realized and unrealized valuations of portfolio investments. Valuations of unrealized investments are based on assumptions and factors (including, for example, as of the date of the valuation, average multiples of comparable companies, and other considerations) that the Manager believes are reasonable under the circumstances relating to each particular investment. However, there can be no assurance that unrealized investments will be realized at the valuations indicated herein or used to calculate the returns contained herein, and transaction costs connected with such realizations remain unknown and, therefore, are not factored into such calculations. Estimates of unrealized value are subject to numerous variables that change over time. The actual realized returns on the Funds’ unrealized investments will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, any related transaction costs and the timing and manner of sale, all of which may differ from the assumptions and circumstances on which the Manager’s valuations are based.

As used throughout, and unless otherwise indicated, “Gross” Equity IRR means the internal rate of return of the interests in the equity tranche of the Fund (the “Class A Equity Interests”) before taking into account expenses, management fees, performance fees and Preferred Equity Coupon payments. It is based on a limited partners’ Equity cash outflows (capital contributions) and inflows (distributions), as directly related to investments and net of investment-related financing, as well as the residual value attributable to Class A Equity Interests assuming the disposition of investment-related assets and settlement of investment-related liabilities at the valuations as of January 31, 2019. Each of Gross Equity IRR and Gross Multiples includes the effect of leverage and does not take into account deductions of management fees, carried interest, Vision Fund expenses or other expenses, and accrued Preferred Equity Coupon. Net IRR for individual investments cannot be calculated without making arbitrary assumptions regarding the allocation of fees and expenses, which could be significant, and cumulative return does not take into account the impact of fees and expenses.

Past performance is not necessarily indicative of future results. The performance of the Funds may be materially lower than the performance information presented herein. There can be no assurance that the Funds will achieve comparable results as those presented herein or that investors in the Funds will not lose any or all of their invested capital.

Certain information presented herein may be based, in part, on information from third parties believed to be reliable and/or assumptions that later prove to be invalid or incorrect. SBG disclaims any obligation to update this information to reflect subsequent developments, reflect a change in assumptions used to prepare this material or for information that later proves to be incorrect.

EACH RECIPIENT ACKNOWLEDGES AND AGREES THAT IT IS RECEIVING THIS PRESENTATION ONLY FOR THE PURPOSES STATED ABOVE AND SUBJECT TO THE UNITED STATES SECURITIES LAWS PROHIBITING ANY PERSON WHO HAS RECEIVED MATERIAL, NON-PUBLIC INFORMATION FROM PURCHASING OR SELLING SECURITIES OF THE APPLICABLE ISSUER OR FROM COMMUNICATING SUCH INFORMATION TO ANY OTHER PERSON UNDER CIRCUMSTANCES IN WHICH IT IS REASONABLY FORESEEABLE THAT SUCH PERSON IS LIKELY TO PURCHASE OR SELL SUCH SECURITIES.

Numbers in brackets represent amounts contributed

(USD bn)

Third-party LPs	Public Investment Fund (PIF), Mubadala, Apple, Foxconn, Qualcomm, Sharp, etc.
------------------------	---

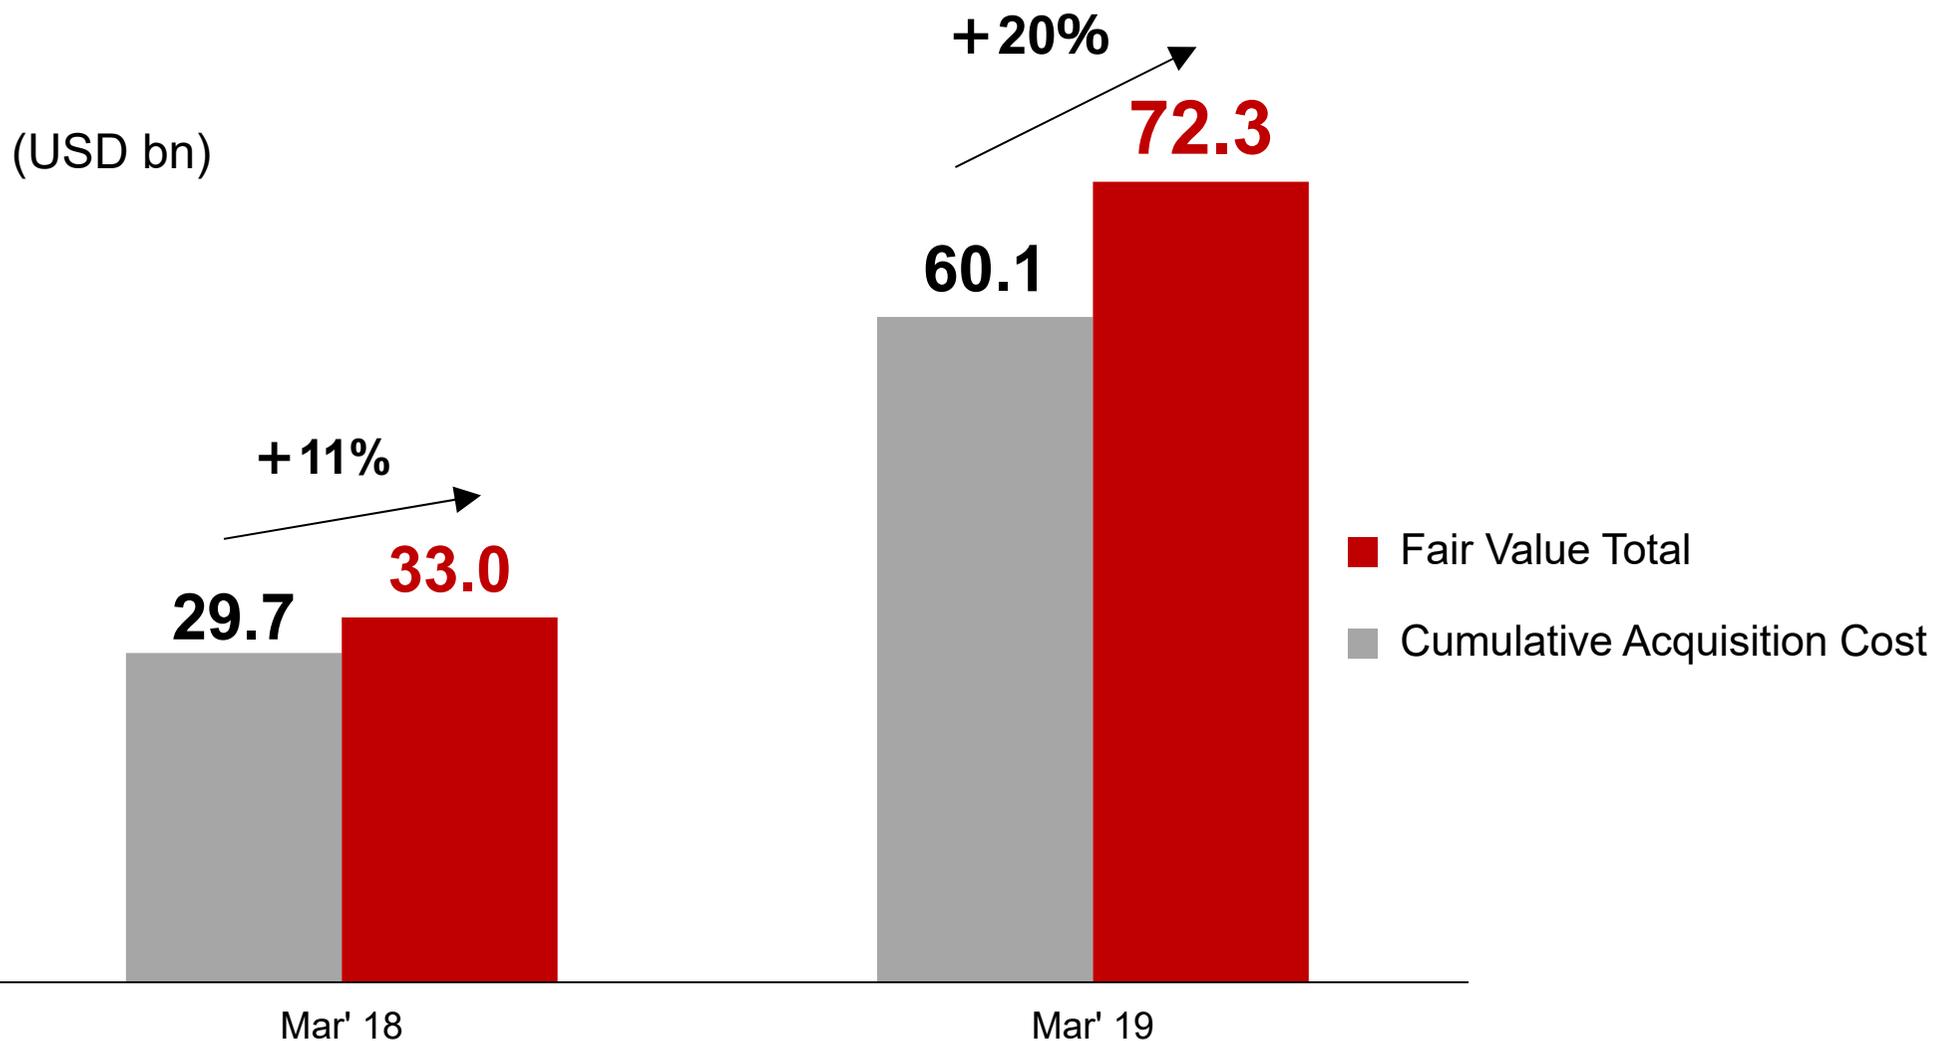

Note: The discrepancy between the presented total capital commitment (USD 97.0bn) and the figure presented in the presentation material for the earnings results briefing for FY2018 (USD 98.6bn) is due to the anticipated, but not yet signed, commitments from an additional LP (planned). There can be no assurance that anticipated closings will actually occur.

*1 A portion of the capital committed by third-party investors in SVF and Delta Fund has been committed in consideration of the total capital committed for both separate funds; hence, the total committed capital and remaining committed capital for each fund will change according to the status of contribution by third-party investors in each fund.

*2 The amount includes \$5bn planned to be used in an incentive scheme related to the SVF and approximately \$8.2bn of obligation to be satisfied by using 24.99% of Arm Limited shares.

*3 \$1.6bn of \$33.4bn contributed by third-party LPs, and \$0.9bn of \$17.5bn contributed by SBG were returned at an exit of investment (sale of investment) after contribution was made.

SVF: Fair Value for Investment Asset

*1 Excluding exited investments. Includes Delta Fund, but Delta Funds has no investment holding as of March 31, 2019, due to the sale of its Didi holdings to SVF.

*2 SVF made some investments through investment holding entities that are subsidiaries, but not wholly owned subsidiaries, of the fund. All investments made through the investment holding entities are calculated as investments made by SVF. As of March 31, 2019, a wholly owned subsidiary of SBG is a shareholder of such subsidiaries. Of the acquisition cost of investments made by SVF, \$1.2 billion belongs to this wholly owned subsidiary; of the fair values, \$1.7 billion belongs to this wholly owned subsidiary.

Our Stance on Corporate Bond for Retail Market

Arguments by some media	Our stance
<p>SBG is too reliant on the retails market for financing</p>	<ul style="list-style-type: none"> • Always diversifying its financing options • Bond issuance in domestic and overseas markets for institutional investors, banks loans that in total over 100 banks have participated in, asset-backed finance, etc.
<p>SBG prioritizes retails investors over institutional investors</p>	<ul style="list-style-type: none"> • Executing financing that is appropriate for each market and target investor demands • Flexibly issuing bonds in domestic and overseas markets for institutional investors • Strong demand from retail investors is to be anticipated given the large amount of financial assets at house holds
<p>Coupon rate is not set at an appropriate level</p>	<ul style="list-style-type: none"> • In principal, the coupon rate is set based on the secondary market levels • The coupon rates of retails bonds are set at an attractive level for both the retail investors in the era of lower investment returns and SBG, the issuer.
