The specific investments identified and described in this presentation do not represent all of the investments made by the relevant SB Fund Manager, and no assumption should be made that investments identified and discussed therein were or will be profitable.

The performance of an SB Fund in this presentation is based on unrealized valuations of portfolio investments. However, there can be no assurance that unrealized investments will be realized at the valuations indicated in this presentation or used to calculate the returns contained therein, and transaction costs connected with such realizations remain unknown and, therefore, are not factored into such calculations. Estimates of unrealized value are subject to numerous variables that change over time. The actual realized returns on the relevant SB Fund's unrealized investments will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, any related transaction costs and the timing and manner of sale, all of which may differ from the assumptions and circumstances on which the relevant SB Fund Manager's valuations are based.

Past performance is not necessarily indicative of future results. The performance of an SB Fund or any future fund managed by an SB Fund Manager may be materially lower than the performance information presented in this presentation. There can be no assurance that each SB Fund or any future fund managed will achieve comparable results as those presented therein.

### **Change in Reportable Segments**

From FY22Q1, the Latin America Funds segment is included in the **SoftBank Vision Funds** segment; from FY22Q3, PayPay is included in the **SoftBank segment**.

\*Since PayPay became a subsidiary of SBKK and Z Holdings from Oct 2022, its operating results is included in the SoftBank segment instead of Other from FY22Q3, with the results retroactively adjusted and presented for FY22Q1-Q3 and for the same period of the previous fiscal year.

#### PayPay became a subsidiary of SBKK and Z Holdings from Oct 2022.

#### **SBKK**

- **PayPay's conversion into a subsidiary: Recorded remeasurement gain of ¥294.8B** relating to business combination in FY22Q3.
- Change in accounting policy:
  - Changed to acquisition method\* from book-value method (pooling of interests method) for transactions made under common control involving non-controlling interests from FY22Q3, in conjunction with PayPay's conversion into a subsidiary.
  - Retroactively applied the accounting policy for transactions such as the consolidation of Yahoo Japan (currently Z Holdings) in Jun 2019 → Recognized identifiable intangible assets → Recorded amortization expenses

#### SBG

Had **no above impact** and **did not record remeasurement gain or amortization expenses**, as PayPay and Z Holdings have consistently been consolidated subsidiaries.

\* SBKK previously accounted for transactions under common control based on the carrying amount of the parent company's assets and liabilities (book-value method or pooling of interests method), and regardless of the actual date of the transaction under common control, retrospectively combined the financial statements of the transferred companies as if such transactions were executed by SBKK on the later of the date when the parent obtained control of the transferred companies prior to the transfer, or the opening balance sheet date of the comparative period as part of the consolidated financial statements of SBKK.

#### **Alibaba Shares and Derivative Financial Assets** (Amount Recorded in B/S)

Value of Alibaba shares recorded in B/S considering prepaid forward contracts: \$32,825M ( A + B )

Of valuation gain on shares ( c ), the gain related to shares used for prepaid forward contracts was almost offset by valuation loss on derivatives ( D ).

SBG's wholly owned subsidiary paid cash tax of **¥201.8B** in FY22Q3 mainly due to the realization of derivative gain related to the early physical settlement of Alibaba prepaid forward contracts in Aug – Sep 2022.

SBG <u>estimated as of Dec 31, 2022</u> that cash tax of **¥250.0B±a** will arise based on its taxable income, including gains from the disposal of Alibaba shares to its subsidiaries conducting fund procurement related to the above early physical settlement. Note that <u>the amount is undetermined until the fiscal year-end</u> as it depends on other gain/loss, including foreign exchange gain/loss, of SBG through Mar 31, 2023.

\*1 The amount of gains and losses for exited investments in FY22 represents the exit price net of the investment cost of such investments. Unrealized valuation gains and losses of such investments recorded in prior years or FY22Q1/Q2 are presented as reversal of valuation gain/loss recorded in prior periods for exited investments in FY22. Therefore, the total amount of gains and losses for FY22Q1 (Apr to Jun) and FY22Q2 (Jul to Sep) disclosed in FY22Q1/Q2 and the gains and losses for FY22Q3 (Oct to Dec) for "investments before exits" may not match the amount of gains and losses for FY22Q1-Q3 (Apr to Dec).
 \*2 For derivatives, the investment cost represents the cost of the derivatives. Returns represent the exit price for exited investments, the fair value for investments before exits, the settlement amount of settled contracts or the fair value of open contracts for derivatives, and the respective amounts received for interest or dividends.
