Total Number of Voting Rights of	3,052,553	

All Shareholders, etc. of the Target	(voting rights)	
--------------------------------------	-----------------	--

(Note 1) The “Number of Voting Rights relating to Share Certificates held by Persons in Special Relationship before the Purchase, etc.” and the “Number of Voting Rights relating to Share Certificates held by Persons in Special Relationship after the Purchase, etc.” are respectively the sum of voting rights relating to Share Certificates held by every person in special relationship (excluding, pursuant to Article 3, Paragraph 2, Item 1 of the TOB Order, those persons in special relationship whose shares are excluded from the calculation of shareholding described under Article 27-2, Paragraph 1 of the Act).

(Note 2) The “Total Number of Voting Rights of All Shareholders, etc. of the Target” is the total number of voting rights (described on the assumption that 1 unit is 100 shares) of all shareholders as of March 31, 2019 as described in the Target’s 21st Business Period Annual Securities Report filed on June 26, 2019. Because shares that are less than one unit (excluding treasury shares that are less than one unit held by the Target) are also subject to the Tender Offer, for the purpose of calculating the “Share Certificates Holding Ratio after the Purchase, etc.,” the number of the voting rights (3,052,951) relating to the number of shares (305,295,182 shares) which is obtained by subtracting the number of treasury stock held by the Target as of September 30, 2019 (6,349,103 shares) from the number of shares outstanding as of September 30, 2019 (311,644,285 shares) as disclosed in the Target’s “Consolidated Financial Results for the Second Quarter for Fiscal Year Ending March 31, 2020 [J-GAAP]” (the “Target’s Q2 Financial Reports”), announced on October 31, 2019, is used as denominator.

(Note 3) Any figures with more than two decimal places are rounded in the calculation of the “Share Certificates Holding Ratio before the Purchase, etc.” and the “Share Certificates Holding Ratio after the Purchase, etc.” above.

(5) Calculation by the Pro Rata Method in the Tender Offer

As the total number of the Share Certificates Tendered (245,923,177 shares) exceeded the maximum number of the Target Shares to be purchased (152,952,900 shares), as indicated in the Public Notice of the Commencement of the Tender Offer and the Tender Offer Statement, all or part of the Share Certificates Tendered exceeding such number will not be purchased pursuant to Article 27-13, Paragraph 4, Item 2 of the Act, and delivery and settlement for the purchase of the Share Certificates Tendered will be on a pro rata basis as provided for in Article 27-13, Paragraph 5 of the Act and Article 32 of the TOB Order (if the number of Share Certificates Tendered contains shares less than one unit (100 shares), the maximum number of the shares planned to be purchased, which is calculated on a pro rata basis, will be the number of the Share Certificates Tendered).

As the total number of the shares to be purchased from each accepting shareholder calculated by rounding the number of shares constituting less than one unit resulting from the calculation on a pro rata basis exceeded the maximum number of shares planned to be purchased, the Tender Offeror reduced the number of shares to be purchased from each accepting shareholder by one unit, beginning with accepting shareholders with the largest number of fractional shares that were rounded up, to the extent that the number of shares to be purchased does not fall below the maximum number of shares to be purchased (if the number of shares to be purchased based on a pro rata basis contains a portion of shares less than one unit, the number of shares to be purchased has been rounded down to the nearest unit).

However, as the maximum number of shares to be purchased would not be reached if making purchase via this method from all of the accepting shareholders with the same number of rounded-up fractional shares, accepting shareholders subject to such reduction were determined by a random drawing among such accepting shareholders to the extent that the number of shares to be purchased does not fall below the maximum number of shares to be purchased.
