

An underwater scene with a school of fish swimming in the upper half of the frame. The water is a deep blue-green color. In the lower half, there is a rocky seabed with some greenish-brown algae or coral. The text "500 million years ago" is centered in the middle of the image.

500 million years ago

An underwater scene with a deep blue background. Sunlight rays filter down from the top, creating a shimmering effect. The bottom of the frame shows a dark, rocky seabed with some greenish-brown algae or coral. The overall atmosphere is serene and mysterious.

A turning point in biological evolution

“Cambrian Explosion”

Biological Evolution

Several species
(Before Cambrian Explosion)

Ten thousand species
(After Cambrian Explosion)

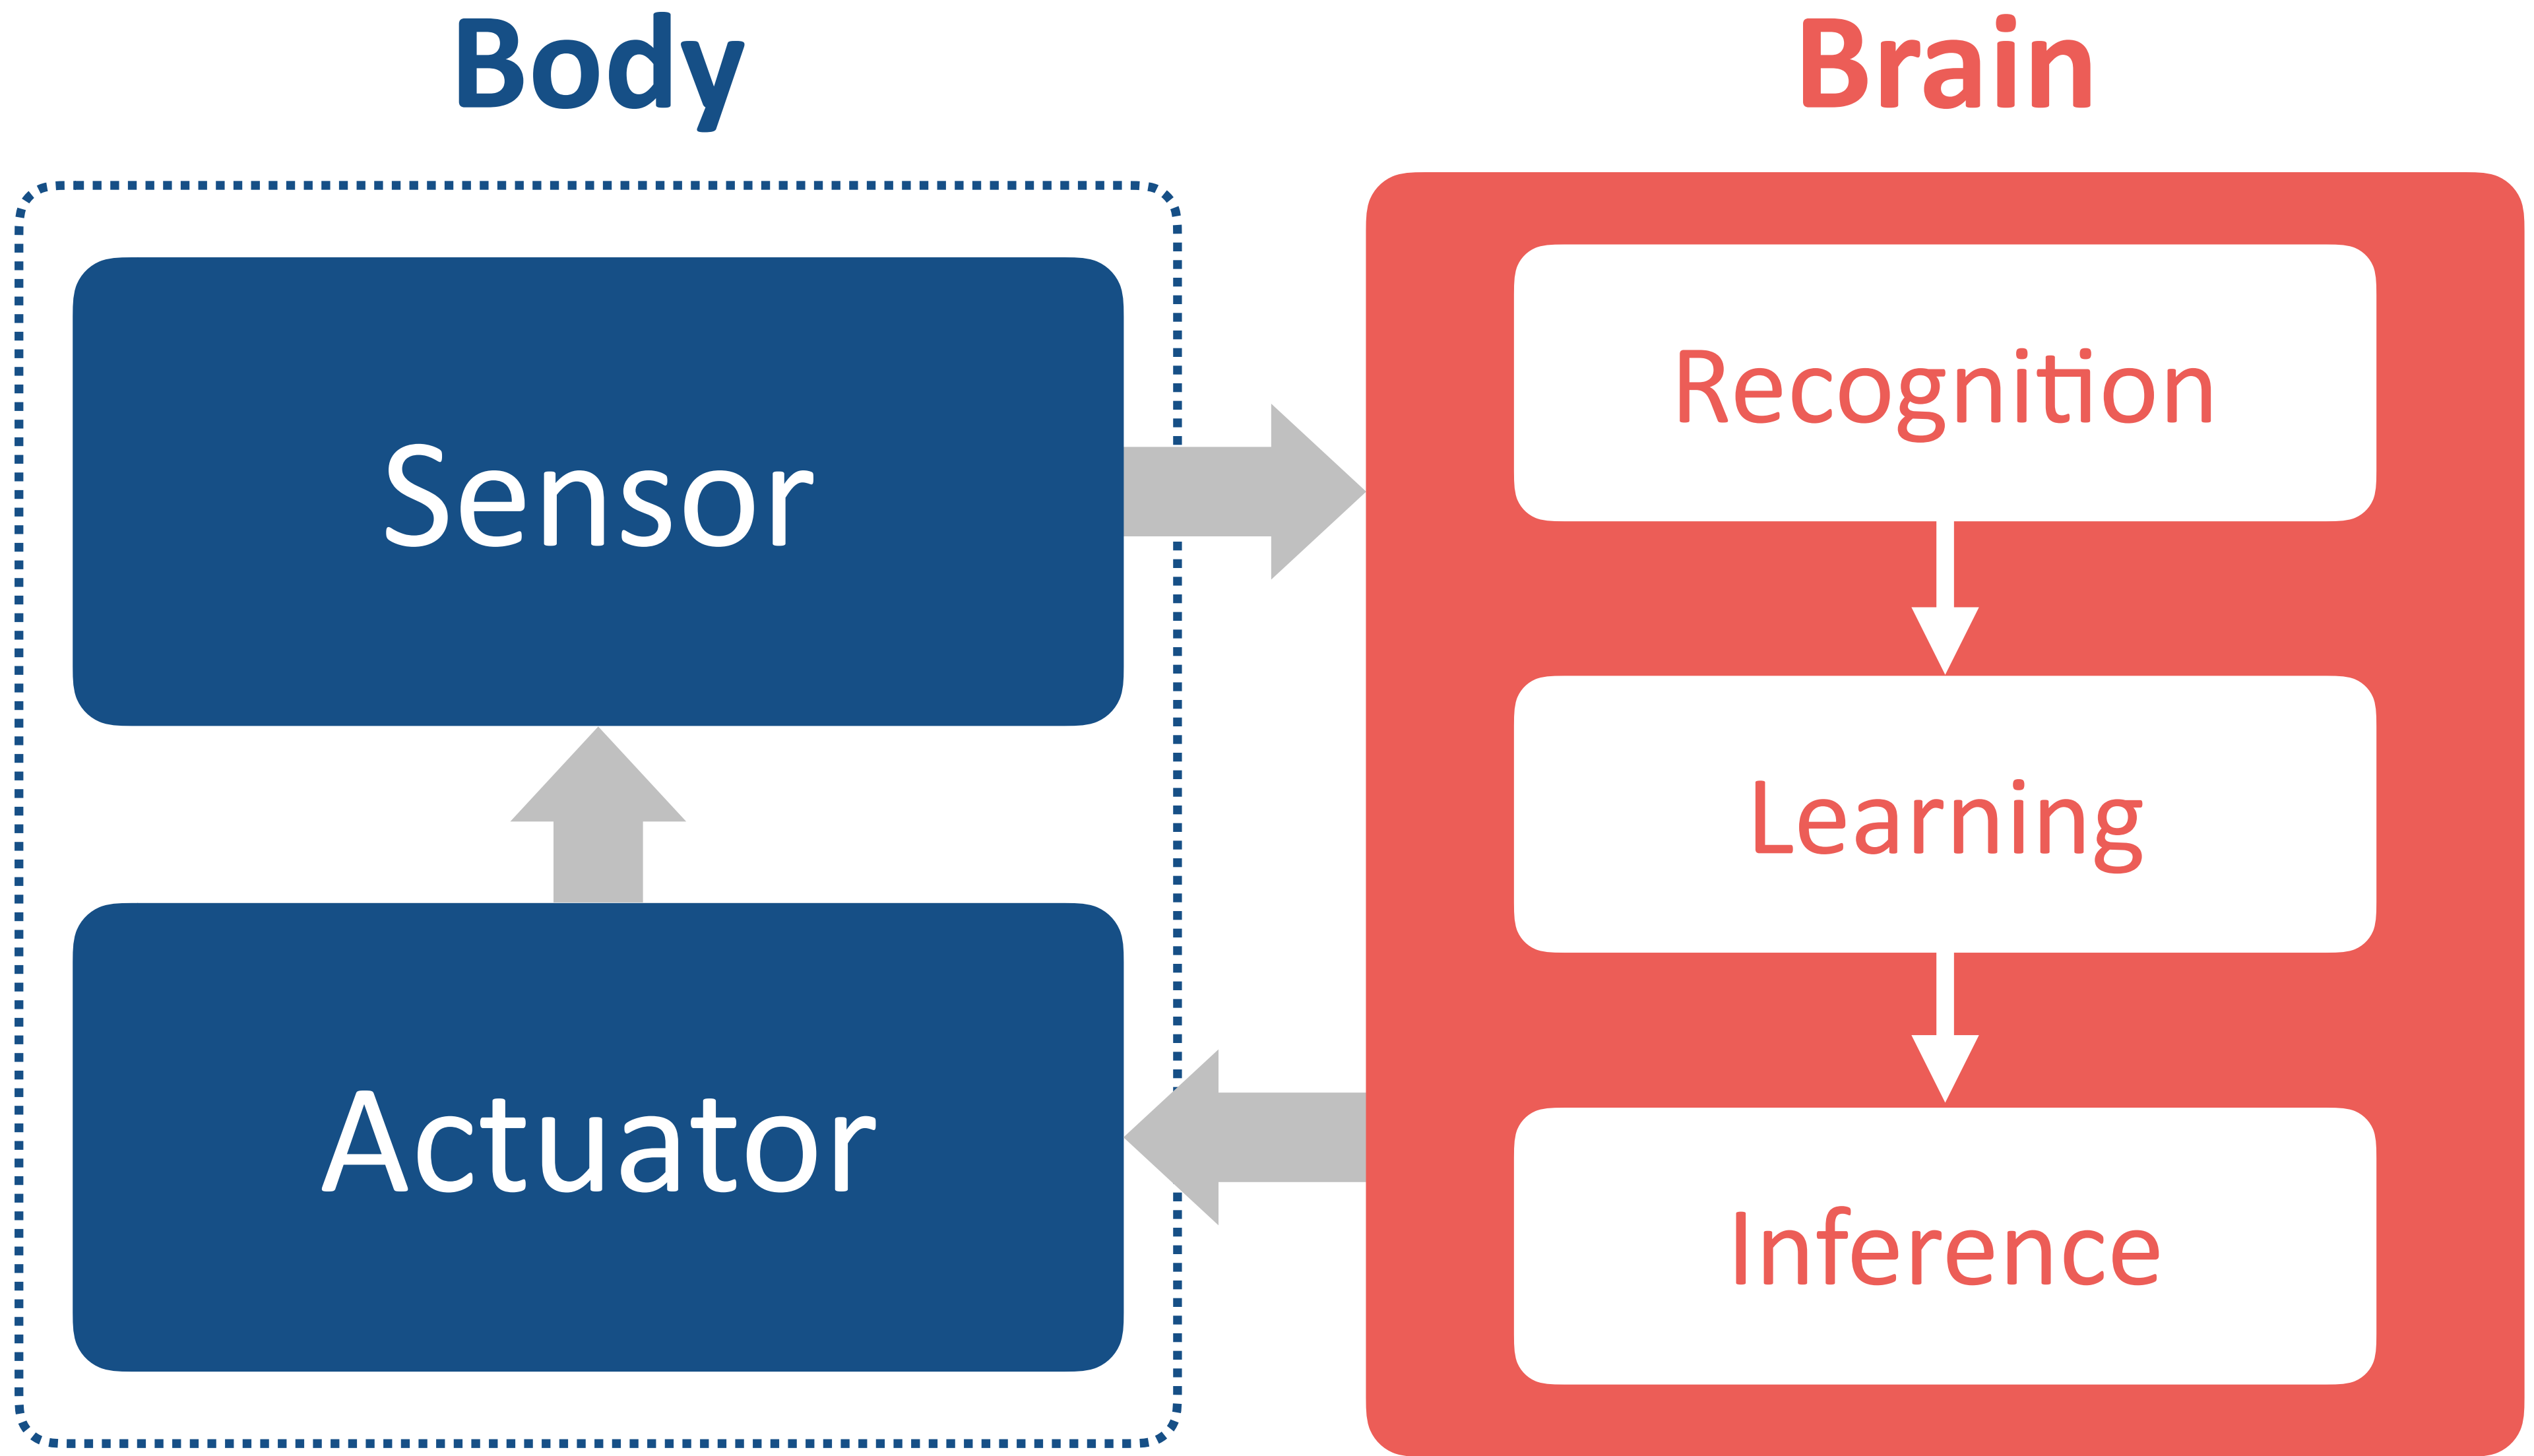

Trigger of Biological Evolution

Origin of life with “Sensors (Eyes)”

Key to Evolution

Sensing

Sensors developed the brain, and that accelerated biological evolution

Sensing Technology
